

COMMERCIAL OFFER

We, at StartICO.net, offer to purchase our unique and professional software for organizing the coin/token sale for initiators of ICO projects. At present time this is the most functional and protected software on the market for working with Cryptocurrencies and Fiat money, blockchain solutions and smart contracts.

Example of a working project on StartICO.net software: <http://tele-bitcoin.io/>

Demo version: <http://demo.startico.net/>

The software has the following features and characteristics:

General functionality of our software:

- Integration with the Ethereum and/or Waves blockchain platform with automatic delivery of the token to investor upon receipt of the investor's payment;
- Acceptance of payments with BTC, ETH, EUR, USD, Visa / MC, plus other Cryptocurrencies;
- Easy integration into the ICO project website by inserting a special script into the html-code of the page;
- Subscribing users to the project's news before the ICO starts;
- Support for 3 interface languages (Russian, English and Chinese). Adding additional languages is possible upon individual request.

Personal account of ICO's initiator:

- Setting up bonuses for early investors with breakdown by dates and terms of validity;
- Verification of the identity of investors. A disabling option available (if investor's identity is not verified, payments are accepted, but the token is not delivered);
- Loading Bitcoin and Ethereum wallet addresses, as well as bank details for receiving payment;
- Function of manual payment order confirmation (in addition to automatic);
- Editable "Help" section in three languages in HTML format;
- Insert a news widget (for example, from Twitter);
- Editable disclaimer in HTML-format;
- Display of token sales statistics;
- Two-factor identification at the entrance to the personal account (plug-in function at the request of the user);
- The function of loading Waves private key, Ethereum smart contract and other sensitive data in an encrypted or compiled form.

Personal account for investors into ICO:

- Our software receives investor's payments and provides to investor automatic tracking of the payment, as well as automatic delivery of the token to investor;
- Our software provides to investor an opportunity to change the address of Waves and/or Ethereum wallet to where the purchased token will be delivered;
- The "News" section;
- The "Help" section;
- Output of investment statistics and order list;
- Contact form with sending messages to the ICO support;

- Two-factor identification at the entrance to the personal account (plug-in function at the request of the user).

Main advantages of our software:

- Full control of the cryptocurrencies/funds collected during the token sale. Cryptocurrencies/funds are sent directly to the wallets and accounts of the investor (or escrow agent);
- Our software provides maximum reliability and security of payment acceptance. Software does not store private keys for wallets and hacking the software does not make sense;
- Inability to change payment addresses and details, each transaction is one-time;
- Easy and fast integration into any website/landing page.

Pricing:

- Software's license for one ICO project with placement on our server - 6000 Euro;
- Software's license for one ICO project with placement on the client's server - 8000 Euro;
- Installation process by the team of StartICO - 2000 Euro;
- Maintenance and customer service throughout the period of using the software (from the moment of installation till the end of ICO) - 1000 Euro/month;
- Services for converting and withdrawing the Cryptocurrency into dollars/euro/rubles – fees are from 3% (discussed individually).

Turnkey solution for ICO projects:

StartICO team also offers turnkey ICO solution, including:

- Conducting Worldwide marketing and PR-campaigns;
- Worldwide community-management;
- Legal registration and support of financial transactions;
- Technical support for all matters that occur during an ICO project.

The price for the turnkey ICO solution is discussed with each client on the individual basis.

We will be happy to answer any of your questions and strengthen your ICO project with our managerial and technical competencies.

Best regards,

Founder of StartICO.net
